Subject: RE: R3 State/EPA WQS & Nutrients Bimonthly Conference Call
Attachments: Region 3 Status of 304(a) Criteria adoption.pptx; R3 Post-2000 Criteria Chart.docx

Thank you everyone for your participation in yesterday's conference call. As promised, attached please find the Powerpoint presentation. The attached Word document is the actual chart. Once I pulled the chart out of the presentation, it reformatted and fits the screen. Figures! As you go through the presentation, just flip to the Word document after slide 5.

In some ways this is better because if you have any corrections to the chart, it's easier to send out that single Word document than a revised Powerpoint. As to that, if you have corrections to the chart, please let me know.

As we will be meeting at the end of September at the States' Meeting, I am going to schedule our next conference call on Thursday, September 14, 2017 from 10 until 11. The only agenda will be to review our agenda for the end of the month, discuss suggested modifications and go over any logistics. It will likely not even take an hour.

Thanks again, and if you have any questions/comments (better yet, agenda suggestions!) please let me know.

Denise
